Welcome to Villa Nurtan

This wonderful individual 285 sq metre luxury villa, named Villa Nurtan after its Turkish architect, is considered the finest in the area.

It is our retreat in Turkey so is fully centrally heated and can be lived in all year round. Using local labour and materials we have aimed to create a villa that is sympathetic to its surroundings. This extends to our furniture, which is mostly hand-made in the village.

Villa Nurtan is located in Keçibükü, Orhaniye, an idyllic valley location surrounded by olive trees and hills. It is only 25 km away from bustling Marmaris, yet offers a peaceful retreat for discerning families looking for a private and very special

place to unwind, well away from 'developments'. It has an eco-friendly (no chemicals used) private 8 x 5m pool set in a large 1600 m² garden with two large verandas and barbeque in the garden. Solar heating system and backup water maintain all services.

Villa Lale Pool and Garden

Villa Lale guests enjoy the luxuries of a private pool whilst being part of a rural Turkish hamlet. In the garden is a stone BBQ for outside meals and around the side of the villa is a swinging chair that is great for a quiet read..

Our guests like being part of the community. There are the sounds of village life. If you are used to the rumble of cars and street life, you will instead get used to the call to prayer just before dawn and at intervals through the day from the village mosque. At night time you

may hear cockerels, dogs, the snuffle of a wild boar, the occasional gun shot as the men hunt at night or the music of a wedding celebration. At other times there is utter quiet – except for the sounds of frogs in the spring whilst the streams are running and the cicadas in high summer.

You can watch the natural world at your leisure – the bats and stars at night, birds swooping to drink at the pool, dragonflies over the water, the birds of prey overhead or just watch the garden grow.

OUR VILLAS ARE SET IN ORHANIYE
A private location on the Bozburun Peninsula

Welcome to Unspoilt Turkey

What is it like to stay in a Turkish village? You will notice that everyone is friendly and will greet you with 'Merhaba' (Hello). The Keci-buku hamlet has a population of around 350, so you can be sure that everyone will know who you are or will work out where you are staying very quickly.

As a stranger you are a guest in the community, so you may be given a gesture of welcome – perhaps an orange or a fig from a tree as you walk by.

What is special about staying in our villas? They are the house that we built ourselves, that we would be proud to live in and share with others. We support Green Tourism.

They are for those that want complete privacy and who will enjoy our village. This is a place for those who want to experience rural village life, without sacrificing luxury.

A beautiful villa in a beautiful setting. We had a very relaxing holiday in an unspoilt part of Turkey.

Orhaniye is located on the Bozburun peninsula which is protected by government laws against the excesses of mass tourism.
