**Luxury villas.** Enjoy luxury holidays in our fabulous villas on the Bozburun Peninsula in Turkey. We are different from travel agents. You book directly with us, the villa owner so you will experience a true authentic rural Turkish holiday. If our values reflect yours, please support our sustainable tourism initiative.

**Sustainable tourism.** Our luxury villas are built by craftsmen from our village so when you stay in them you are contributing to sustainable tourism as the team are based in the village. Expect food and a warm welcome from the villagers who will look after you throughout your holiday.

# Low Impact Tourism

**Sustainable.** We believe in a low impact tourism. The Bozburun Peninsula is a protected nature area so we go to great lengths to minimise our impact on the environment.

We have invested in the latest 100% ecological cleaning systems in each private pool plus installing water softening systems which means that we use NO chemicals in our pools. Our guests love our pools as they do not smell of chlorine and do not pollute the environment.

We have also invested in the latest generation of solar water heating systems as these are far more efficient than panel systems. We have drilled wells and installed automatic drip watering systems in the gardens to minimise the amount of water we take from the village.

The mayor supports our way of investing in the community.

We arrange transfers and rental cars delivered to the villas by the day. Just book your flights and leave the rest to us for fabulous luxury villa holidays in unspoilt Turkey.

*"Villa Anni was perfect and we really enjoyed it. I thought the amount of care you and Ann have put into furnishing it shone through and makes the holiday even more enjoyable. Loved the village and the people are so friendly and kind. Thanks and well done on achieving such a beautiful villa"*

# The Bozburun Peninsula

**Unspoilt Turkey.** The Bozburun Peninsula is one of the most beautiful parts of Turkey as it is protected by the Government and classed as a natural environment. This means that all development is severely limited with high rise construction banned throughout the peninsula.

Because of this, the Bozburun Peninsula is often referred to as a living museum as the way of life is largely unchanged from decades ago.

This makes it very attractive to visitors who are looking for a wonderfully relaxing place to stay, and explore the villages dotted along the peninsula. Compared to bustling Marmaris, all the villages along the Bozburun Peninsula are quiet and you will find the locals very friendly.

Our local bay in the village is so beautiful and natural that the Turkish Government has applied for it to become a World Heritage Site.

*"A magical villa in an exceptional village with the most glorious people, I would recommend this beautiful villa to anyone looking for that special holiday experience. After being here for the past 10 days we are all in agreement that we will never stay in a resort again. Thank you for making our holiday so relaxing and comfortable."*
